WORK EXPERIENCE

FE developer at glommen-mjosen.no (www.glommen-mjosen.no).

📅 July 2023 - July 2025

Application development in the Norwegian Forest Maintenance and Management Company. Technologies used: React, ArcGIS, Jest, Typescript, Git, Azure, Gitpod

FE Team Leader at PWC (www.pwc.com).

📅 May 2022 - August 2023

Frontend development for PWC Timesheet (internal project) in react. Used technologies: React, Redux, Redux-saga, Reselect, Jest, Typescript, Git, Jenkins, Azure, Jira, Veracode platform

STL (Senior Technical Leader) at Inventi Company (www.inventi.cz).

📅 August 2019 - April 2022

Development of car configurator for PSA Group - store.peugeot.fr. Used technologies: React, Redux, Redux-saga, Reselect, Jest, Typescript, Git, Jenkins, Azure, Jira

Development of Internet Banking at BSC Company (www.bankingsoftware.company).

📅 February 2019 - July 2019

Development of internet banking for foreign clients for BSC. Used technologies: React, Redux, Redux-saga, Jest, Typescript, Git, Jenkins

Web and Intranet Development for Integra (www.integra.cz).

📅 April 2018 - February 2019

Web and Intranet Development. Used technologies: React, Redux, Redux-thunk ES8, Jest, Webpack, Typescript, Formik, Eslint, Git

Development of SPA applications in React (www.hcinsurance.ru) for the company Home Credit

📅 December 2017 - March 2018

Development of the Frontend SPA application in Javascript. Used technologies: React, Redux, ES6, Mocha, Chai, Webpack, Flow Type

Consultation of development in Javascript (Node JS, React) for the company Arbes technologies, a.s.

📅 August 2017 - November 2017

Consultation of web services development in Javascript, especially Node JS, React, Redux, ES6, Mocha, Babel, Webpack

Node JS REST API for company T-Mobile

📅 June 2017 - October 2017

I'm in charge of developing JSON REST API. Used technologies: Node JS, Express, babel, ES6, GIT, mocha

SPA React Ncloud application for the T-Mobile Company

📅 June 2016 - August 2016

I'm responsible for development of application for Virtual Machine configuration. All application run as single page application in React + Redux and bundled with webpack. Application communicate with server by JSON REST API. Used libraries: react, redux, webpack, babel, ES6, less, GIT, mocha, react-router, Immutable

Senior programmer at Loreal

📅 March 2011 - February 2019

I am responsible for a trouble-free running of the Loreal Company Intranet for Eastern Europe (Czech Republic, Slovakia, Hungary, Poland). I am in charge of 17 applications written in PHP/JavaScript (React + Redux + ES6 + Webpack) + MSSQL + 2 online applications written in PHP/JavaScript + MySQL:

- www.lorpress.cz
- www.loraviz.cz

Migrating an existing PHP application from PHP 4.2 to PHP 5.5

📅 September 2015 – November 2015

For MetLife Insurance Company, I carried out a transfer of an existing reporting application into a newer PHP version, especially the overwriting of the non-supported structures, libraries and functions.

Wiki documentation for Komerční banka

📅 February 2015 – September 2015

The aim was to create several pages based on an existing Confluence technology and to make these pages multilingual. Most of the code was written in JavaScript with: React + Redux + ES6 + Webpack, Mocha, Babel.

Universal administration for content management for mobile phones and tablets

📅 February 2013 – November 2018

The aim was to create a redaction system (www.adamapp.cz), which allows for a configuration of the future appearance of a mobile application and content management. The application then communicates with the mobile application through JSON API. The application is written in PHP + Nette Framework + jQuery.

PHP programmer at AllInOne s.r.o.

📅 February 2012 – December 2012

PHP programmer + Codeigniter framework framework in the Zapakatel.cz project.

JavaScript programmer at Vivalogic s.r.o.

📅 February 2011 – September 2011

JavaScript framework programmer and Ext JS for an internal application for Česká spořitelna.

Web application development

📅 February 2011 – February 2014

Over the past 5 years, I have created a large number of custom-made websites, some of which are mentioned below as an example:

- www.dentkomplex.cz - Nette + jQuery
- www.alenaadcera.cz - Node.js + React
- www.jammclub.cz - Nette + jQuery
- www.abunistav.cz - Nette + jQuery
- www.waketrip.cz - Nette + jQuery
- www.freestylezoo.net - Nette + jQuery + React
- www.freestyle-kempy.cz - Nette + jQuery
- www.woice.cz - Nette + jQuery
- www.cafe131.cz - Nette + jQuery

Trainings

📅 February 2011 – present

Besides the actual programming, I also organize Javascriptu and PHP trainings. Currently for Companies:

ANYWHERE.CZ

- <http://education.anywhere.cz/react>
- <http://education.anywhere.cz/node>
- <http://education.anywhere.cz/javascript>

GOPAS.CZ

- <https://www.gopas.cz/Kurzy/Katalog-kurzu/Programovani/Node-JS>

PRIMAKURZY.CZ

EDUCATION

Master's Programme – Faculty of Civil Engineering, Czech Technical University (ČVUT)

Field: Information systems

📅 September 2009 – February 2011

In the master's programme, I focused on web technologies, especially PHP + Nette Framework, MySQL and JavaScript + jQuery.

Dissertation: Construction journal online.

One-year language stay in London

📅 September 2005 – June 2006

During the one-year language stay in Great Britain, I learned fluent spoken and written English.

Bachelor's programme - Faculty of Civil Engineering, Czech Technical University (ČVUT)

Field: Information systems

📅 September 2004 – June 2009

During the bachelor's programme, I started programming in C# and PHP + I learned about the MSSQL and MySQL databases + the basics of artificial intelligence, neural networks and normal forms.

Bachelor project: Programme for the steel lattice truss design in C#.

Josef Gočár Secondary Technical School of Civil Engineering, Prague

📅 August 2000 – June 2004

WHERE I LECTURED

2019

Conference www.teched.cz

Lecture: Web app security ()

2018

Conference www.javadays.cz

Lecture: React JS ()

2018

Conference www.teched.cz

Lecture: Node JS ()

TRAININGS AND CONFERENCES ATTENDED

2024

Training on the use of AI for application development and automation of AI processes.

2017

Conference WebExpo 2017

Regularly meetup Reactisti, PragueJS, Nette

2016

Training Angular - anywhere.cz

Training React JS - Michal Kočí - Bratislava

React meetup - www.meetup.com/Reactisti

2015

Training: Today's web frontend – Martin Michálek

Conference Devel.cz

Training SEO – Marek Prokop

2014

Training SEO – h1.cz

Training Google Analytics – dobryweb.cz

Conference Brno PHP

Training Company server – Linux – dobryweb.cz

Conference WebExpo

2013

Nette Framework Championship – David Grudl

Javascript – Daniel Staigerwald

Conference WebExpo

2012

Training SEO - h1.cz

Training Photoshop - root.cz

Training GIT - dobryweb.cz

2011

Training PostgreSQL - dobryweb.cz

Training jQuery - David Grudl

2010

Training Web application development in Nette Framework – David Grudl

Training How do I create web applications – Jakub Vrána

Training MySQL – Jakub Vrána

Training PHP programming – Jakub Vrána

2009

Training Introduction to PHP – Jakub Vrána
